MARCH 2024

PROJECT HIGHLIGHT - ROCK RAIL

Rock Rail is a multifaceted job like many jobs here at CWC, our crews along with multiple subcontractors have been working vigilantly over the past month working on items such as Rail, Grading, Utility, Electrical and even preparation for buildings. Looking ahead our grade crews will be working on building the site up in preparation for the Rail crews to continue running rail throughout the remainder of the site. CWC Utility crews will be focusing on Phase 2 portions of installing the new Fireline and domestic water feeds to the soon to come wellness building and Rail Repair shed.

WOMEN IN CONSTRUCTION WEEK MARCH 4TH - 10TH

Civil Works Contracting proudly recognizes Women in Construction Week, honoring the vital contributions of women in our industry. Their expertise, dedication, and innovative spirit drive our success and inspire us all. We are grateful for their leadership and commitment to shaping a brighter future for construction.

SPRING INTO SAFETY

Spring Safety Reminder! As temperatures rise, remember to:

1. Stay hydrated
2. Wear lightweight clothing & sunscreen
3. Watch out for weather hazards
4. Check equipment for damage
5. Be mindful of wildlife

LET'S ENSURE A SAFE AND PRODUCTIVE SEASON!
