AUGUST 2024

## WETLAND RESTORATION

Our team at Camp Lejeune has been actively engaged in the reclamation of two wetland areas, covering a combined total of 80,000 square feet. In addition, we have undertaken and completed the repair of failed storm drainage systems, which are crucial for safeguarding both the local environment and surrounding infrastructure. These efforts significantly enhance the efficiency and sustainability of daily operations on the base.

## STORM SAFETY

As hurricane season approaches, it's crucial to prioritize safety and preparedness on construction sites. Secure all loose materials and equipment to prevent damage during high winds. Ensure proper drainage around the site to mitigate flooding and potential water damage. Develop an emergency plan that includes clear evacuation routes.

## OPERATORS WANTED

As we continue to grow so does our need for talented crew members. We are actively seeking experienced heavy equipment operators for the Civil Division. If you know someone that would be a great fit for our team refer them to your division leader. If they stay for 45 days you will receive a \$200 bonus.

## EMPLOYEE OF THE MONTH

Congratulations to Louis Wise, our Employee of the Month! Louis's dedication, outstanding performance, and unwavering commitment to excellence have set a remarkable example for the entire team.
