Project Highlight - Bushy Park Rail Expansion

Our team has officially broken ground on a critical rail expansion project at Bushy Park in Goose Creek, SC. The project includes two new rail lines designed to boost capacity and streamline logistics for the growing industrial complex. This upgrade will reduce bottlenecks, support long-term growth, and enhance the efficiency of inbound and outbound shipments. Construction is underway with a strong focus on precision, safety, and quality to ensure seamless integration into the existing rail network.

Employee Spotlight

We're proud to spotlight Tyshaun Jones, a key member of our Civil Construction team, currently supporting operations at MOTSU. Tyshaun brings a strong work ethic, attention to detail, and positive attitude to every task, qualities that make him an asset on mission-critical projects. His dedication to safety and teamwork drives success in complex environments.

Beat the Heat: Stay Cool, Stay Safe

Stay hydrated by drinking plenty of water throughout the day—don't wait until you're thirsty. Take frequent breaks in the shade or a cool area, and watch for signs of heat exhaustion like dizziness, nausea, heavy sweating, or headache. If symptoms occur, stop work immediately and seek medical attention.

3 Day Weekend

In observance of the Fourth of July, CWC will be closed on Friday, July 4th. We hope everyone enjoys a safe and relaxing three-day weekend with family and friends. Regular operations will resume on Monday, July 7th. Happy Independence Day!
