

PROJECT HIGHLIGHT

NCSPA INTERMODAL RAIL YARD

Our Railroad Division has begun a new project for NCSPA, constructing 7,000 feet of new track at the Port of Wilmington to expand intermodal capabilities. The project includes the installation of four new intermodal tracks, realignment of existing tracks, and the addition of several new switches to enhance rail flexibility and operations. Crews are focused on precision grading, track construction, and tie-in work to ensure seamless integration with the existing infrastructure. This investment in rail capacity strengthens the port's role as a vital hub for cargo movement and economic growth along the East Coast.

MEMORIAL DAY REMEMBRANCE

As we enjoy a three-day weekend, we pause to remember the true meaning of Memorial Day. This important holiday honors the brave men and women who made the ultimate sacrifice in service to our country. Let us take time to reflect, show our gratitude, and keep their memory alive as we gather with family and friends.

SAFETY TIP

DISTRACTED DRIVING AWARENESS

Distracted driving remains a leading cause of accidents, with cell phone use, specifically texting, talking, and social media activity, being the most common distraction. Texting is considered the most dangerous form, as it combines visual, manual, and cognitive distractions. Drivers should remain aware that using a phone behind the wheel not only endangers lives but can also carry serious legal consequences, including fines.

EMPLOYEE SPOTLIGHT

DYLAN BAKER

This month's Employee Spotlight shines on Dylan Baker, a hardworking and dependable team member known for his strong work ethic and positive attitude.

Dylan consistently demonstrates a commitment to quality, safety, and teamwork on every project he supports.
